ABSTRACT

In April 1965 the Educational Research (now Resources) Information Center (ERIC) was delegated the responsibility of improving the availability of educational information, especially information about the disadvantaged. The purpose was to assist local education agencies to develop and implement their own programs for the disadvantaged and for all students. Documents related to educational programs for the disadvantaged were obtained, and a total of 1,740 were selected for classification and dissemination. Demonstration packets of these documents on microfiche were distributed to the 50 state departments of education and selected large and medium-sized city school systems. These documents on the disadvantaged are the first 1,740 ED references in the ERIC system. This volume is a coordinate index for those 1,740 documents with ED citations grouped under the appropriate descriptor terms which are alphabetically arranged. (This coordinate capability is lost in microfiche format, and is best achieved in hardcopy by cutting the pages down the middle.) The companion number and author index is available as LI004036. INTRODUCTION

In April 1965 the Educational Research Information Center (ERIC) of the Office of Education was delegated the responsibility, through the Elementary and Secondary Education Act of 1965 (P.L. 89-10), of improving the availability of educational information, especially information about the disadvantaged. The purpose was to assist local education agencies to develop and implement their own programs for the disadvantaged and for all students.

ERIC contacted local and State specialists and consultants in order to locate programs already attempting to meet special educational needs. Of the many identified, the 23 programs listed at the end of this introduction were chosen for distribution. A letter was sent to the program director asking permission to describe the program and to disseminate documents about it. Each program, described in a 500-word summary written in journalistic style, highlighted the development and status of the program and included educational innovations of interest to public school administrators and faculty. The program description also included an index which organized selected related documents on two levels: horizontally, the index related the documents to the specific program described or to a similar program; vertically, the index set up 10 categories for classification of documents: general description, curriculum guide, materials, teacher's guide, tests and measurements, public relations material, implementation, assumptions, evaluation, and general discussion of issues.

Selected documents related to educational programs for the disadvantaged were obtained from organizations which developed the 23 programs and from the Office of Education, Harvard University, Yeshiva University, the Southern Education Reporting Service, California's Instructional Technology and Media Project, Adams State College, and the New York State Department of Education.

Of those documents received, 1,740 were selected for classification and dissemination. Some related to the 23 previously mentioned programs; others were of more general interest.

The 1,740 documents were processed through a joint effort of the central ERIC staff along with contractual support. A resume - consisting of a full bibliographical citation, an abstract, and a list of descriptive index terms - was prepared for each document. The document and resume were put on microfiche. Copies of all documents in the collection, in microfiche

and hard copy, may be obtained through the ERIC Document Reproduction Service.

The documents with their appropriate program descriptions, program indexes, and general indexes were distributed as four P.L. 89-10 information packets in August 1965 (120 documents), October 1965 (600 documents), January 1966 (600 documents), and March 1966 (420 documents). The 50 State departments of education and 100 large city school systems received the following items:

- (1) A covering letter and description of the program and its services.
- (2) A hard copy resume of each document.
- (3) The program descriptions, program indexes, and general indexes.
- (4) The full text of each document in microfiche form. (Included in each microfiche was a copy of the resume form.)

A slightly different distribution was addressed to 500 randomly selected medium-sized city school systems. These packages consisted of:

- (1) A covering letter and description of the program and its services.
- (2) A hard copy resume of each document.
- (3) The program descriptions, program indexes, and general indexes.
- (4) Microfiche copies of document resumes.

The first group of recipients thus obtained both the resumes and full text of the documents on microfiche; the second, only the resumes of the documents on microfiche.

To enable the user to locate the documents in the P.L. 89-10 collection, two volumes have been compiled. This volume contains a word list compiled from the index terms generated from the 1,740 documents and identified with each document.

The companion volume contains a sequential listing of each document by document number and an alphabetical listing of personal authors.

For those who received the P.L. 89-10 packages, the following procedure can be followed to obtain desired documents referenced in this volume:

If one desires to know the documents which are on the subject of, for example, the reading readiness of disadvantaged preschool children, he would locate the words reading readiness, disadvantaged youth, and preschool education in either the right-hand or left-hand word lists. The 4-digit numbers listed beneath each term correspond to the last four digits of the ERIC document number. That is, 1205 is document number ED001205.

Using the relevant document numbers, the user can locate the full bibliographical citation appearing in the first volume. He could obtain document resumes of these numbers by pulling them from his set of document resumes, or he could obtain the full text of these numbers by pulling them from his set of full-text documents.

Those who did not receive the P.L. 89-10 packages may purchase resumes and full text of the 1,740 documents through the ERIC Document Reproduction Service.

PROGRAMS SELECTED FOR STUDY

Program	Location
The Action for Boston Community Development Program	Boston, Massachusetts
The Great Cities Program for School Improvement:	
Focus on Detroit	Detroit, Michigan
Mobilization for Youth	New York, New York
Pre-School Oral English Program	El Paso, Texas
Compensatory Education Program of the Fresno City Unified School District	Fresno, California
Disoid Literacy Project	New York, New York
The Great Cities Program for School Improvement:	
Focus on Philadelphia	Philadelphia, Pennsylvania
Madison Area Project	Syracuse, New York
The Miami Experiment in Bilingual Education	Miami, Florida
The Oakland Interagency Project	Oakland, California
School to Employment Program	New York State
Early School Admissions Project	Baltimore, Maryland
Early Training Project	Murfreesboro, Tennessee
Higher Horizons	New York, New York
Perry Preschool Project	Ypsilanti, Michigan
Program of the Community Project	Rockville, Maryland
Talent Preservation Project	Houston, Texas
Youth Development Demonstration Project	Minneapolis, Minnesota
The Community Resources Pool	Orangeburg, New York
Morgan State Reading Clinic	Baltimore, Maryland
The Mott Program	Flint, Michigan
North Carolina Comprehensive School Improvement Project	Raleigh, North Carolina
Project for Children of Migrant Parents	Austin, Texas
